

ANNUAL VEGETATION MANAGEMENT PROGRAM

Each year, CN is required to manage vegetation on its right-of-way. Managing this vegetation contributes to mitigating fire risks and enhances the efficiency of inspection of track infrastructure.

To ensure safe railway operations, CN will conduct its annual vegetation control program on its rail lines in the province of Saskatchewan. A certified professional (Davey Tree Expert Company Ltd., 1-800-465-6367) will be applying herbicides on and around the railway tracks (primarily along the 24-foot graveled area/ballast). All product requirements for setbacks in the vicinity of dwellings, aquatic environments, and municipal water supplies will be met.

CN only uses herbicides that have been approved for use in Canada and in the province within which they are applied.

The program is expected to take place from May to October 2024.

Visit www.cn.ca/vegetation for more information or to make an inquiry, contact the CN Public Inquiry Line at contact@cn.ca or 1-888-888-5909.
